WORK MONDAY WONDERS.

## MISSING AVIATOR BELIEVED TO HAVE BEEN LOST AT SEA

Airplanes From Hazelhurst  
Continue Search To-Day for  
Capt. Mansell R. James.

When at noon to-day nothing had been heard at Hazelhurst Field, Mineola, of Capt. Mansell R. James, the British ace, and winner of the Pulitzer Trophy, who has been missing since last Thursday, Mineola flyers came to the conclusion that, flying across Long Island from the Berkshires to Atlantic City, Capt. James missed his mark and, traveling at 90 or 100 miles an hour, went out to sea and was lost.

"He may have been drowned," one

expert said, "or he may have had Harry Hawker's luck, and at this moment be a passenger on a tramp steamship bound for Europe." The three Curtiss airplanes which left Hazelhurst yesterday to look for Capt. James in the Hudson Valley, the neighborhood of the Berkshires and in Connecticut, continued their search to-day under much improved atmospheric conditions, but with no greater success. The visibility was poor yesterday on account of low clouds.

Early to-day attention was turned to the theory that Capt. James was lost at sea, and the commander of every vessel leaving New York was asked to be on the lookout for any trace of the missing aviator or his plane.

The Aero Club received word to-day that it might be well to search the region about Torrington, Conn. Telephone subscribers there have reported hearing sounds that they took to be made by an airplane motor. These reports were sent, several of them, to the Torrington telephone exchange and then forwarded to New York.

Chalmers Case Postponed.  
Supreme Court Justice Donnelly yesterday postponed until June 13 the hearing in the case of Thomas Shearman, as committee of the person of John Armstrong Chalmers, as an incompetent. Action was brought by Chalmers, through his New York attorneys, to have himself declared competent to manage his own affairs.

## PRESIDENT GREETED READ, PRAISING OCEAN FLIGHT

Mr. Wilson Expresses Pride in U. S. Aerial Heroes — French Admiral Receives American Flyer.

PARIS, June 4.—President Wilson received Lieut. Commander A. C. Read, commander of the naval seaplane NC-4; Commander John H. Towers, who was in charge of the flight of the three American seaplanes which attempted to fly from America to Europe, and Lieut. Commander P. N. L. Bellinger, commander of the naval seaplane NC-1, this morning. He congratulated them and expressed pride in the work they accomplished during the flight.

Lieut. Commander Read also visited Admiral Leygues, French Minister of Marine, returning to London at noon.

Admiral Benson, with whom Read conferred last night, will start home June 16, it was said.

When Read, Commander Towers, Lieut. Commander Bellinger and Admiral Plunkett arrived last night they were given a great ovation and officially welcomed by representatives of the Government and Ministry of Marine.

Guarantee of Wheat Prices Will Keep Wheat Out of Private Trading This Year.

PARIS, June 4 (Associated Press).—All the important governments of the world, with the exception of that of Argentina, having guaranteed prices of wheat to farmers, and all the European Governments having subsidized the bread supply, it is considered probable here that commerce in wheat will remain in government hands next year and that there will be little private trading.

The American members of the Supreme Economic Council believe there is no necessity of continuing centralized control of the distribution in Europe.

The question of food control after

peace has been signed has been discussed by the Economic Council. Herbert C. Hoover and the other American members opposing control, taking the view that, as there will be no food shortage after the next harvest, food control as it now exists is unnecessary. Mr. Hoover contends that normal trading should be re-established throughout the world, as no guarantees exist for other commodities; and that if attempts are made to control prices in other commodities, production will be stifled and a shortage created.

## POISON IN LIQUOR SOLD.

Saloon-Keeper Tried for Death of Man Who Drank.

Antonio De Alphonso, a saloon keeper, at No. 155 Bleeker Street, who, it is alleged, sold whiskey mixed with wood alcohol, causing the death of eight men in October, 1917, was today placed on trial before Justice Vernon N. Davis in the Criminal Branch of the Supreme Court, charged with manslaughter in the first degree.

Assistant District Attorney Job A. Banton charged that De Alphonso's motive was increased profits. Clinton Arnold, the prosecutor said, drank two glasses of the whiskey and died within an hour.

## Alkali in Shampoos Bad For Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is mulsified coconut oil shampoo, for this is pure and entirely grassless. It's very cheap and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff. Adv.

## Flies Bring Filth—Cause Sickness Keep 'em Out—Screen Now

Dr. William A. Woeschin of the Bronx department of health says that two flies early in the season will produce billions of their death-dealing offspring in the metropolitan district before the summer is over.

Don't let flies bring filth and disease into your home. Keep them out by screening. Swat those that are in. Do all you can to prevent their spread. They are more deadly than the wildest animal of the jungle.

Numerous diseases are spread by them. The mild winter means an early and bad fly season.

Do your part by your family—screen.

SCREEN DOORS
